

ONLINE EXAMINATION SYSTEM

MOHAMMED LATIF SIDDIQ,1505069

NADIA ANJUM,1505085

OBJECTIVES

- Centralized Examination
- A platform for practice, examination and discussion
- A system for taking examination without any large physical space
- Automatic ranking and result publishing

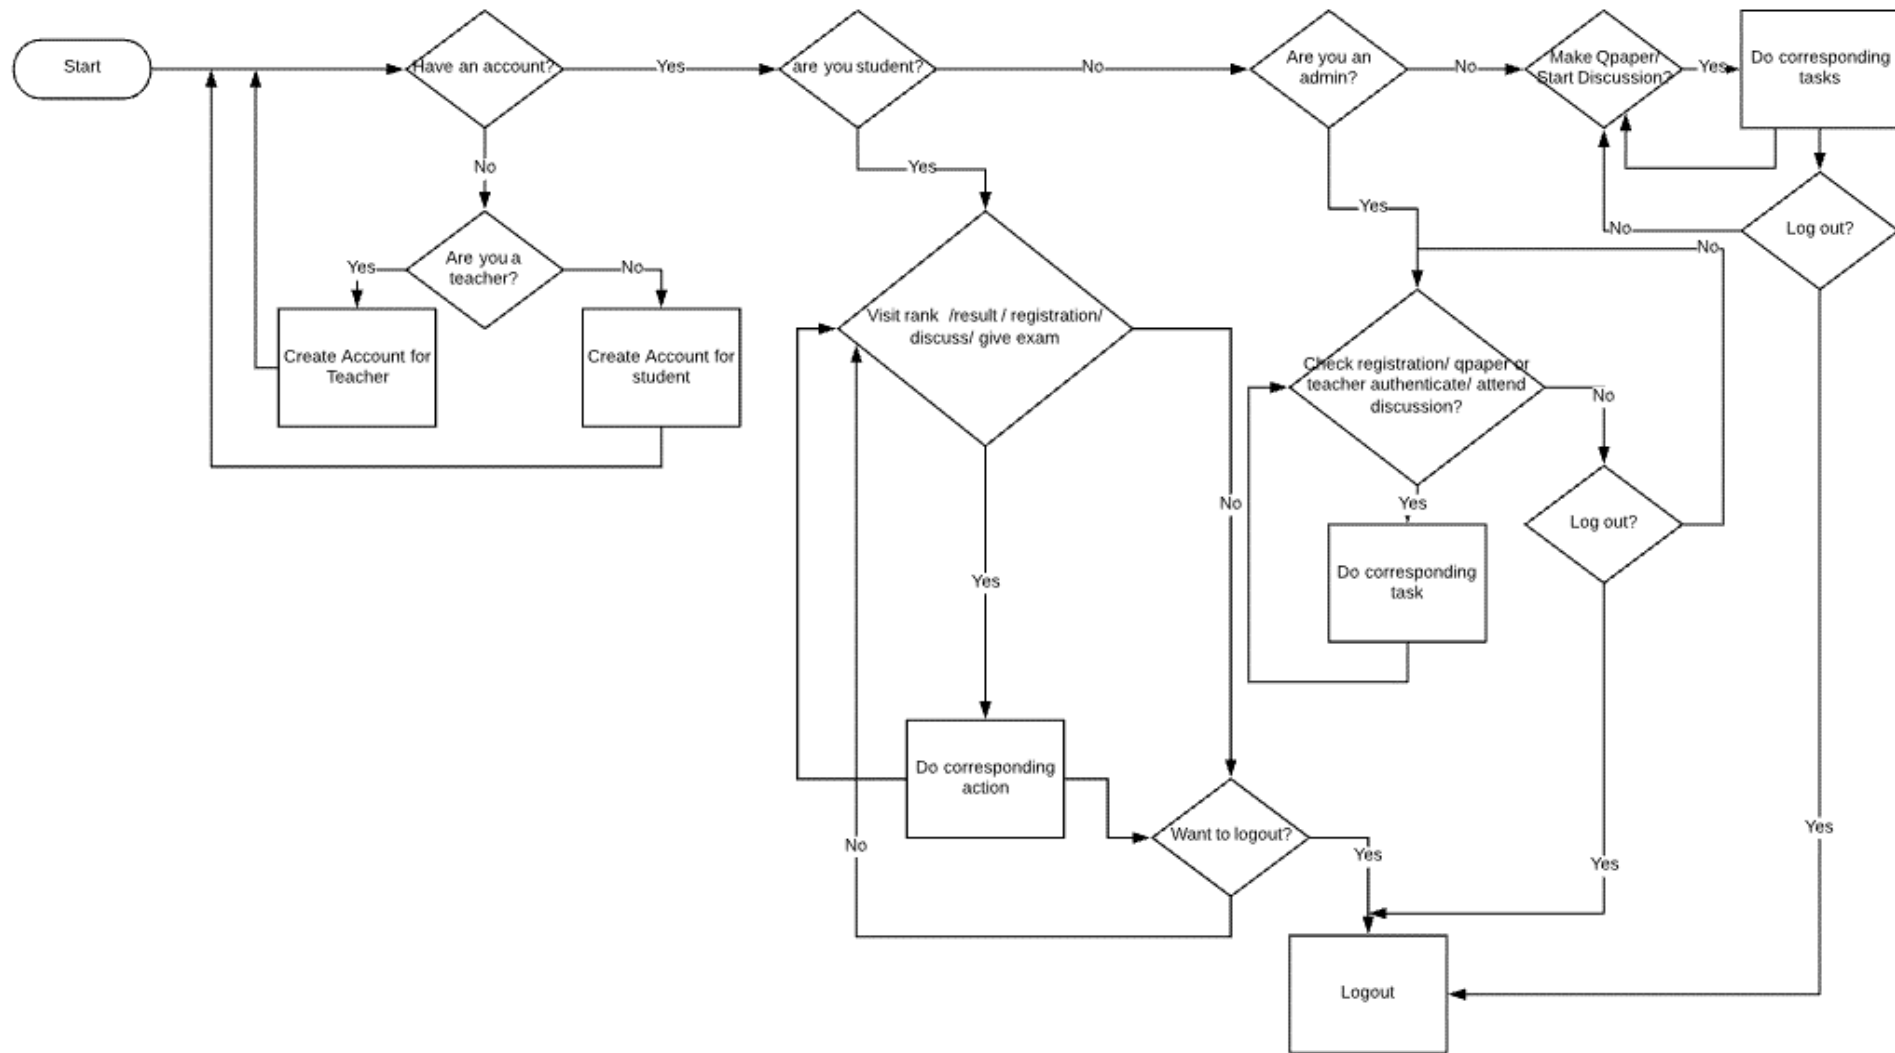

DESCRIPTION

Online examination system is a platform where anyone can participate in exams from anywhere. This software will ease the exam system as neither the teacher or the students must be present physically for attending the examination. This will save both time and cost. Moreover students will be highly benefitted from the discussions and this will make quality education available to everyone.

SHORT COMING

- Cheating may occur
- Setup wrong questions or no answer for the questions
- Some solutions may be written type and have to check manually
